

TROUBLE IN HALT IN STRIKE ACTION

But Traction Officials and the Police of Newark Still Apprehensive and Are Ready for an Emergency.

SENTIMENT AGAINST TIE-UP.

President of Public Service Corporation Promises Employees at All Night Meeting that Evils Will Be Remedied.

(Special to The Evening World.)
NEWARK, N. J., Oct. 1.—The proposed strike of the trolley men in Newark and the vicinities, which was scheduled for today, has not materialized, but President Thomas M. McCarter, of the Public Service Corporation, and Chief of Police Slopner are still apprehensive, fearing that the quiet condition now prevailing is merely a deceptive forerunner of coming trouble.

The entire police force of the city was held in reserve at the several police stations until 5 o'clock this morning, with the Chief in command, and to-day detachments are ready in every precinct for immediate action.

President McCarter and Superintendent Wheatley were on duty all night expecting a strike and were in constant communication with their representatives at various points until this morning. Just before they left for home to rest they were informed that there was apparently no chance of the men going out.

The meeting of the Executive Committee of the Union was held in Lyric Hall last night and lasted until late this morning. It was decided that the opposition of the old employees of the corporation who protested against striking was too formidable to make such a movement a success and that, in view of Mr. McCarter's promises to remedy the evils complained of, it was concluded that a strike was impracticable.

Mr. McCarter, attended the meeting and addressed the men, explaining that he would do everything possible to correct any existing evils.

The cars are all running to-day on regular schedule, and the prospects of a strike seem to be improbable, temporarily at least.

There is to be a meeting of the union late this afternoon, however, at which conditions will again be discussed.

JERSEY CITY TROLLEYMEN VOTING ON THE STRIKE.

The Jersey City employees of the Public Service Corporation are voting at their headquarters in Phoenix Hall to-day on the strike question. The balloting will continue until 8 o'clock this evening. The voting is going on in an orderly manner and there has been no disturbance of any kind.

The police officers, which had been on duty all night, were sent to their homes this morning. Elaborate preparations had been made by Chief of Police Murphy to preserve order in the event of a strike being declared, and similar precautions will be taken tonight if there are any indications that the men are going out.

So far as can be learned a majority of the local trolley men are averse to striking, and it is believed that the decision of the local union will be against a strike.

The Public Service Corporation officials, besides invoking the aid of the police, had made other preparations to protect their property. They had prepared to turn their line into a force of cavalry, and with this end in view had hired horses on which to mount the men and procure a supply of saddles and bridles. The mounted line, in the event of a strike being declared, are to perform the double duty of patrolling the tracks and making ready to cut trolley lines as cut by the strikers or their sympathizers.

ONE THOUSAND MEN READY TO REPLACE STRIKERS.

Men to replace the motormen and conductors of the Jersey lines in case of a strike are being held in New York. In case of trouble one thousand of these can be hurried to Newark in a few hours to break the backbone of any strike. The men are under pay of the company, reporting three times a day to a man said to be J. L. Shannon, at No. 4 Greenwich street. They receive \$2.50 a day and report at various hours, so that a hundred or more are available nearly all the time.

The men who have been hired were advertised for in the regular way and told to bring their uniforms with them. Some have only shirts, others have trousers and some a coat. Few have a full uniform. As a whole they are not at all prepared for the work, and in case there is a strike they can all be in Jersey in a few hours. The men are experienced men, and the roads will suffer no tie-up and but little inconvenience in case of a strike.

Dr. Bull's Cough Syrup—The One That Cures and Is Prescribed by Leading Doctors.

Whenever you have a case of cough, cold, bronchitis, croup, asthma, whooping cough, measles, hoarseness or sore lungs in the family, or if you wish to give the patient speedy relief and a positive cure, he prescribes the medicine that always cures—Dr. Bull's Cough Syrup.

No other formula has ever been discovered that so effectively cures all Dr. Bull's Cough Syrup.

In these days of substitution the public should be careful not to be misled by cheap imitations and new remedies claiming to be Dr. Bull's Cough Syrup. When you buy, look for the name of Dr. Bull's Cough Syrup on the wrapper and the name of Dr. Bull's Cough Syrup on the wrapper and the name of Dr. Bull's Cough Syrup on the wrapper.

STATISTICIANS NEED NO LONGER WONDER AT THE INCREASED CONSUMPTION OF LIQUOR—HERE ARE SUFFICIENT CAUSES FOR IT.

In the United States during the year that ended June 30, 1902, there were consumed 1,539,081,901 gallons of wines, malt liquors and distilled spirits, an average of about nineteen gallons for each man, woman and child in the country. While the per capita of distilled spirits has dropped from 2.86 to 1.36 gallons in the past

forty years the per capita of wine has increased from .26 to .63 gallon and of malt liquors from 1.87 to 1.74 gallons. Each person now drinks about three times as much wine as a generation ago and nearly ten times as much beer. And even with this some get away with a great deal more than their share.

RICH MILL OWNER VICTIM OF LOCKJAW

Fatal Attack Follows Slight Injury Received by William G. Scott, of Paterson, While Busy in His Barn.

PATERSON, N. J., Oct. 1.—William G. Scott, who lived at Peabody, near here, died in the General Hospital from lockjaw. He had been in the hospital several days. He was injured in his barn two weeks ago by being caught between a wagon and the side of the barn. His injury seemed slight, but symptoms of tetanus set in and he was taken to the hospital.

Mr. Scott was born in Dummerline, Scotland, about sixty years ago, and came to this country in 1840. Upon the death of his father he succeeded to the mill business founded by the latter under the name of the Franklin Manufacturing Company. He was considered a wealthy man.

Mr. Scott was chosen the first secretary of the Board of Trade of this city, and held that position until five years ago, when the board disbanded. He was a lover of sports and is said to have owned the first steam launch that sailed in the Passaic River above the Dundee Dam.

His widow and five children survive him.

BOY SHOTS MAN BY ACCIDENT AT FAIR

Crowd Sees Youth Wound Wesley Pierson, Probably Fatally in a Shooting Gallery on the Westchester Grounds.

(Special to The Evening World.)
WHITE PLAINS, Oct. 1.—In full view of hundreds of people gathered in attendance at the Westchester Fair, Wesley Pierson, of Nyack, was accidentally shot to-day by a boy in the name of James J. Lambert for a decision in the shooting gallery.

The merry-making was at its height when the accident occurred. There were several thousand people in the grounds. Participation in the various sports suddenly ceased and the crowd gathered around the body of the wounded man.

Pierson was employed in the restaurant on the ground, and during an off hour, went to the shooting gallery to try his skill at the targets. The boy who is responsible for the shooting was in temporary charge.

A physician was called from White Plains, and the condition of the wounded man is very serious.

CORNER IN LARD CLOSED.

CHICAGO, Oct. 1.—The last day of grace for the shorts in September lard showed that Swift's corner was a success on paper. Failing to get the grease those who had sold and could not deliver were forced to cover in the pit. The price was run up a half cent a pound or \$1.75 a tierce, and closed at \$1.80 a tierce, or \$2.25 a hundred.

There are rumors of many defaults. The price of lard has been a pouring in of cash laid to this market to fill September sales, and at the same time there has been a decided effort to move the lard away and into consumption. In one week there were exports of almost 60,000 tierces. The Swift & Co. have been called upon to deliver to them by small outside packers. Lard for October is offered at \$1.75. It is the general belief that Swift has made a big loss on the deal and still has the "corpses" to liquidate at a heavy discount.

OLD MAN MOURNS HIS MISSING \$1,000

Says Stranger Persuaded Him to Invest Cash in Faro Game and Has Him Arrested—Judge Blames Victim.

Bowen Wheeler, a white-haired and saintly-faced old man, who lives at No. 60 West One Hundred and First street, made an unsuccessful complaint of larceny against Edward Phillips, a professional gambler, in the Centre Street Court to-day.

Mr. Wheeler said that several weeks ago he met Phillips, who, he asserted, persuaded him to enter into a scheme to break a faro bank. All Mr. Wheeler had to do was to get \$1,000 with which to sit in a game of faro in which Mr. Phillips dealt.

According to Wheeler, Phillips was to deal him out a fortune. Instead, he said, Phillips dealt for the house and got Mr. Wheeler's \$1,000. The old gentleman asserted that Phillips told him there was a slight flaw in the system, but thought if Mr. Wheeler got another \$1,000 it might come out all right.

Mr. Wheeler said he had been unimpaired by Phillips' arrest. When Magistrate Barlow heard the charge he said that under the law he could not hold the prisoner, as the venerable complainant was a victim of his own plotting to do wrong.

LARGE INCREASE IN IMMIGRATION

September Record is Broken—Figures Show that 5,543 More Landed Last Month Than the Same Period in 1902.

The September record for immigration is broken this year by the month which ended yesterday.

The official figures for this port show an increase of 5,543 immigrants landed at Ellis Island in excess of the number landed in September, 1902.

The number landed in September, 1902, was 12,309, while for this year it is 47,852.

GUN QUARANTINE ASKED.

Fear of Yellow Fever Prompts the Request to Government.

WASHINGTON, Oct. 1.—Fearing an epidemic of yellow fever, a number of persons living along the Rio Grande have appealed to the War Department for the establishment of a "shotgun" quarantine and that soldiers be ordered to this duty.

While the officials of the Department are alive to the necessity for action to prevent the spread of the disease, they have concluded that the present outbreak does not justify such radical steps as contemplated by the request for troops.

TURKS WIPE OUT WHOLE VILLAGES

Men All Slain at Razlog, Villages Burning All About and 3,000 Fugitive Women and Babies Gathered at Rila.

SOFIA, Bulgaria, Oct. 1.—The whole population of the district of Razlog has been massacred or has fled, a despatch from Rila Monastery reports. Three thousand women and children, fugitives from the Turkish soldiery, have arrived at Rila. Many villages around Razlog are said to be burning. The depopulated town is surrounded with tents occupied by Turkish troops, who avoid fighting and attack only innocent people.

Letters from Monastir say the Turkish authorities posted a proclamation reading in part:

"For the last time, the Bulgarians who have been deceived and who have left their dwellings and trades are invited to return to their homes and villages. Those who do not return and refuse to trust to the mercy of the Imperial Government will be pursued and their homes destroyed in the severest fashion."

The Revolutionary Committee at Monastir report a long list of atrocities committed by the Turkish troops in September, including the ruthless slaughter of a number of children, who were hurled from high rocks. It is stated that the Turks killed over 300 persons in several villages and that while taking 130 villagers as prisoners to Neveles, they slew seventy-five. At another place, eighteen women were tortured and then shut in a barn, which was set on fire.

HEAVY FINES FOR MASHERS.

TOLEDO, O., Oct. 1.—Toledo has an anti-furting ordinance on its books. The ordinance is introduced by request of the Board of Public Safety, and was drawn by the City Solicitor and approved by the County Committee last night.

It provides that any person who shall unlawfully follow, pursue or otherwise molest or insult any female shall be fined not to exceed \$50 and costs. The City Solicitor says it will reach the class against whom it is aimed.

CHRONIC SORES
Signs of Polluted Blood.

CHRONIC SORES Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint that has been lurking in the blood since birth breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health.

If you have a chronic sore write us. No charge for medical advice.

ABRAHAM AND STRAUS BROOKLYN Friday's Unusual Values.

PRICE quotations are down in the Store as well as the Street, yet—there is a difference. Wall street's drop in prices means hard luck for thousands. The economies presented at Abraham & Straus's mean good fortune for thousands. October's commencement marks the real beginning of Autumn—the new season. And for the month's first Friday the whole store is filled with a magnificent showing of the new goods and with price-prizes it will be your loss to miss. The prestige and power of the Abraham & Straus organization have never made stronger effort. Here are details which should stir you to early action in response.

Notions. Great Sale to Start October

Axiom: No store in the United States ever attempts to sell Notions of the highest grade for prices as low as Abraham & Straus prices in these great occasional sales.

AUTUMN dressmaking begins in earnest now and everybody will be as busy as bees for a month to come. Modistes and home dressmakers will need a plentiful supply of the little things that are as important to dress as rivets are in a ship. So we start a SALE OF NOTIONS. You may be sure that everything here is of first quality. You may be sure of a saving—the price list shows that. Cut it out and bring it along—it is the surest way not to forget anything.

Women's \$17.50 Tailor Built Suits, \$12.50

ONLY a hundred—the city is that we couldn't get five hundred of these Suits. But the hundred will make one of the most talked about sales of the season—even here. It is the smartness of the style, the finish of the tailoring, the excellence of the material, that make them such notable value. Such style and such pricing have never been joined before.

They are made of the splendid Lyman's style cheviot, in navy blue and black, two styles, one the three-quarter length skirt coat, blown from the waist over shoulders, prettily trimmed with narrow bands of taffeta, lined with taffeta. Skirt is seven gore, flare bottom, trimmed with taffeta bands to match jacket. The other style is a long coat, lined with taffeta, with wide bands of taffeta, and a double-breasted blouse front, lined with satin. Skirt is seven gore, flare bottom, finished with band and rows of stitching. Inset length; sizes 32 to 44, full \$17.50 value, at \$12.50.

Second floor, front, Central Building.

Young Men's Suits, \$9.75

TWELVE-FIFTY IS THE PRICE THAT'S FAIREST for them, in fact as far as style and finish are concerned you might hunt far to get such Suits even for that. But we do a big yearly business with the maker, and he took off a slice of usual profit for this occasion.

The Suits are particularly smart and stylish. Coats are single-breasted in the new Autumn model, with broad shoulders, snug collar and lapels and the best of every curve to suggest the figure. Made of the new cheviots—the stuffs for wear as well as looks. Sizes 16 to 20 years. \$9.75.

Second floor, rear, East Building.

Boys' \$4.00 Suits, \$2.75.

WHO is the young chap between 7 and 16 years old that wouldn't be the better outfit for a sturdy double-breasted new suit of cheviot? Who's the mother that won't appreciate a dollar and a quarter saving on the price?

The chevrons are of splendid quality and in the dark, neat mixtures that show soil the least. Tailoring is of the sort boys' clothes should have—the strongest thread for the sewing, the smartest shape for the Suits. \$2.75.

Second floor, rear, East Building.

Priscilla Condensed Milk, 9c.

WHEN we put the Priscilla label on anything in this Grocery Store, it means that the article is the best to be had.
